

## PROFESSIONAL SUMMARY

Passionate and self-motivated Computer Science student with strong foundations in software development and computer science principles. Skilled in building responsive, user-friendly web applications using modern technologies like HTML5, CSS3, JavaScript (ES6+), React, and TailwindCSS. Experienced in collaborative version control with Git/GitHub and deploying live applications on Vercel. Enthusiastic about continuous learning and active participation in developer communities.

## EDUCATION

UNIVERSITY OF NIGERIA, NSUKKA - Nsukka, Enugu | September 2023 - Till Date

Bachelor of Science (BSc) in Computer Science

Expected Graduation: 2027 | GPA: In Progress

## SKILLS

- Languages: HTML5, CSS3, JavaScript (ES6+), Java
- Frameworks & Tools: React, Next.js, TailwindCSS, Node.js, MongoDB, Git, GitHub, Vercel
- Core Skills: Responsive Design, API Integration, UI/UX, Version Control, Component Architecture, Debugging, RESTful Development

## WORK EXPERIENCE

Frontend Web-Developer (Contract) — Protech | Remote

Contracted to PixelSmints, an NFT platform

May 2025 – July 2025

Protech is a tech startup specializing in UI/UX design and web development. I was contracted for the role of lead frontend web developer for PixelSmints.

- Developed the entire frontend architecture for PixelSmints, an NFT creation and marketplace platform, using React and Next.js.
- Built dynamic pages for NFT creation, buying, profile management, and admin moderation.
- Integrated UploadThing for image uploads, with real-time previews and validations.
- Implemented authentication and protected routes using NextAuth and middleware.
- Designed a role-based admin panel to manage NFTs and users, with toast notifications, email alerts (Nodemailer), and modal confirmations.
- Collaborated with backend developers and contributed to schema design using MongoDB and Prisma.
- Ensured responsive, accessible UI with TailwindCSS and hosted using Vercel.

Freelance Web Developer / Personal Projects

June 2024 – Present

- Built and deployed multiple responsive UIs using HTML, CSS, and JavaScript.
- Practiced React development with reusable components and version control using Git.
- Strengthened understanding of accessibility, performance, and clean semantic code.

## PROJECTS

### PixelSmints NFT Platform

- NFT creation and marketplace platform for artists and collectors.
- Tech Stack: Next.js, TailwindCSS, UploadThing, MongoDB, Prisma, NextAuth, Vercel

### Portfolio Website

- Designed and developed a personal portfolio to showcase experience and projects.
- Tech Stack : React, TailwindCSS

## HIGHLIGHTS

- Contract frontend developer at Protech, contributing to a production-grade NFT platform (PixelSmints)
- Over 1 year of hands-on experience with modern frontend tools and workflows
- Completed 10+ real and personal projects using React, Next.js, and TailwindCSS
- Skilled in building clean, responsive UIs with robust API integration
- Active in developer communities and technical learning platforms
